

THE WORKINGMEN WON THE MUTINEERS SAVED

The Strike Also Served to Moderate the Condition of the Poles

The Strikers Believe That They Have Again Proved a Weapon Which Can be Successfully Turned Against the Government at Anytime.

St. Petersburg, Nov. 18.—Midnight. The railroad strike was today formally declared off, beginning at noon on Monday.

The workmen's council held a protracted session tonight and discussed the abandonment of the strike. Many of those present, especially the leaders of the extremist faction, advocated a continuance of the strike, declaring that only war to the knife with the government was possible and urged that the strike had been forced until the Cronstadt mutineers were unconditionally pardoned and martial law in Poland abolished.

The railroad strike committee covered the abandonment of its position in the following proclamation: "The strike of the St. Petersburg railroad men has shown the government that the execution of cruel measures like the death penalty will always meet the active resistance of the working classes. The strike has shown that our power is growing, and if later the committee finds it necessary to offer the government decisive battle we will conquer.

"Comrades, gird yourselves for the struggle. When it is found necessary all the roads in Russia will strike and will continue the struggle until the government has fulfilled all our political and economic demands."

A CLAIM OF VICTORY.

St. Petersburg, Nov. 19.—The workmen's council at 3 o'clock this morning decided to call off the industrial strike on Monday at noon, claiming that a great victory has been achieved and that the lives of 1,600 Cronstadt mutineers have been saved.

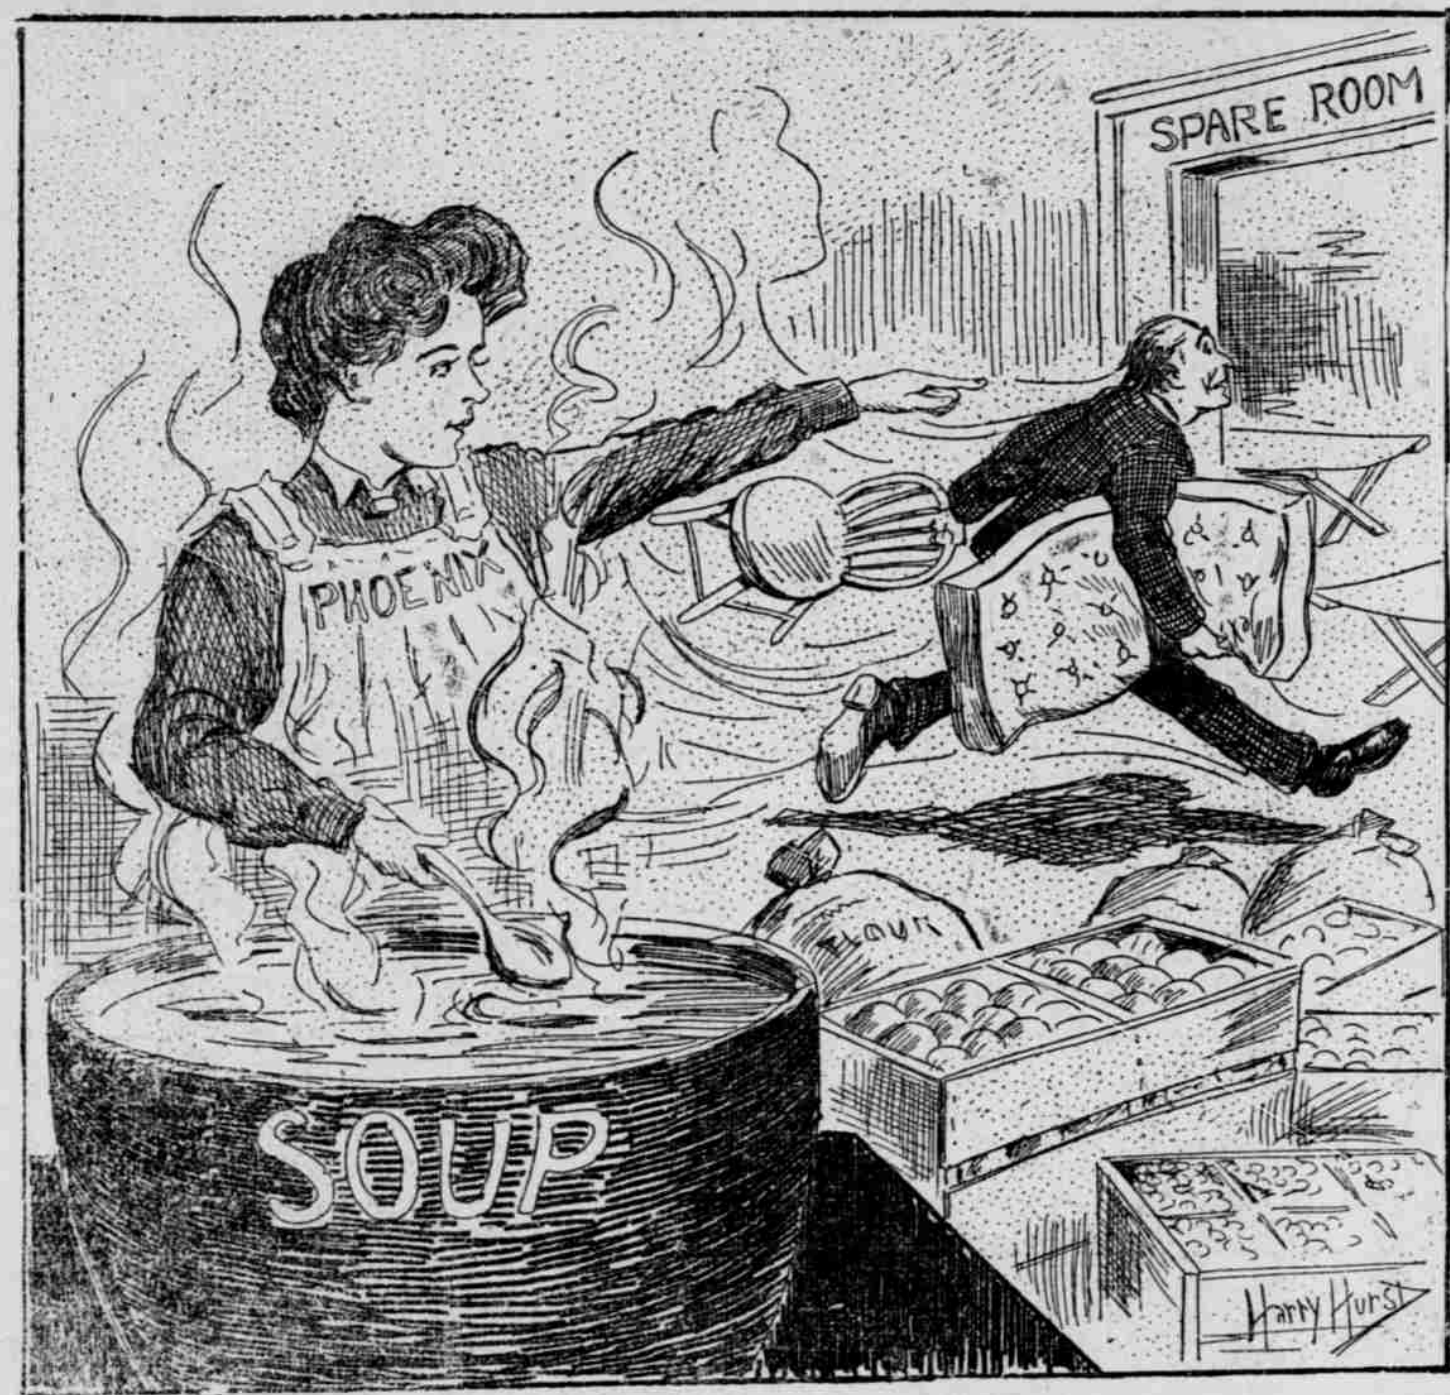

IT'S A REVOLUTION.

A French Expression of Hope That the Throne May Be Saved.

Paris, Nov. 18.—Anatole Leroy-Beaulieu, member of the French academy and an eminent authority on Russia, has addressed a notable letter to the Journal Debats upon the Russian revolution.

He says in part: "The events transpiring in the Russian empire are nothing less than a great revolution, which promises to be as long and tragic as the French revolution, although it is yet to be hoped that the Russian revolution may not bring about the fall of the throne and dynasty. This revolution will be social and political, and whether it assumes a torrential character, sweeping over all boundaries, or whether it is guided in regular channels through the foresight of Count Witte.

"As in the case of the French revolution, there will be in Russia a transfer of power and property to new hands. In the eyes of most Russians, it is the bureaucratic autocracy which must end. It was neither the army nor the fleet which was defeated by

the Japanese, but the great voice vanquished was the autocracy. The recent savage violence and slaughter of Jews, with perhaps more victims than throughout the reign of the French revolution, is attributable to the autocratic regime."

The writer examines at length the imperial reform and says it is the imperative duty of such liberals as Prince Eugene Troubetzkoy to strengthen the hands of Count Witte, who is the sole man capable of dealing with the situation.

TAMING OF THE TIGERS

Yale's Annual Defeat of the Princeton Eleven

Harvard Again Failed to Demonstrate Superiority Over Dartmouth — Other College Contests.

New Haven, Conn., Nov. 18.—Following the old fashioned style of football, Yale today gave Princeton a "23 to 4" beating, the worst in many years, but the Princeton team had the satisfaction of breaking Yale's clean record by a beautiful forty-three yard drop kick by Tomber. But after all the Blue can still point to a goal line that has not been crossed by an opponent this season.

The game was relieved from positive dullness by Yale's adoption in the second half of the much-longer-for "open play," when long runs around the ends much kicking, in which the quarter backs did their share, and two brilliant dashes by Quarterback Hutchinson of Yale, repeatedly brought the 30,000 spectators to their feet. The singing at the game was inspiring, as it always is, but Princeton had more lung power and had the courage to halt their catchy songs across the field. Yale's reply becoming enfeebled as interest in the game increased. The weather was so delightfully mild that heavy wraps were not needed, and the charming gown of the women, much bedecked with their favorite streamers, made the grand stands brilliant with color.

Of the game as a football study, it was the old story of a well learned lesson on the part of Yale, with plenty of resources if they were needed. The features of the game were the dashes of Hutchinson, who has never played better. The first time he made twenty-eight yards, during which he made a flying leap over a Princeton tackler and the second time he covered seventy yards and was pulled down when

Just a bit of nigger-head cactus, but oh so good to eat. Donofrio's Crystallized Cactus Candy.

ANOTHER BARGAIN: 40 acres under the Mesa canal with full water right in same. \$2500. The ranch is about two miles this side of Mesa, every foot of it is good, sandy loam and well adapted for raising cantaloupes, grain or alfalfa; is in good neighborhood, close to schools and has rural free delivery; has an adobe and also a frame house and a frame barn, etc. This is very, very cheap. Investigate.

E. J. BENNETT

Real Estate, Loans and Insurance, 16 and 18 North Center St.

twenty-five yards from Princeton's goal. Penalties were frequent.

THE THIRD TIE.

Cambridge, Mass., Nov. 18.—For the third consecutive time, the Harvard football eleven today failed to win a victory over Dartmouth college team, score being a tie, 6 to 6. Last year also the result was a tie, neither side having scored, while the year before Dartmouth defeated Harvard, 12 to 0. Throughout the game Dartmouth showed much superiority and most of the play was in Harvard's territory. The scoring by both teams was the result of the lucking, and there were no spectacular plays. The weather was perfect for football and more than 20,000 spectators witnessed the contest.

TEDDY PLAYED.

Cambridge, Nov. 18.—Yale freshman team defeated the Harvard freshman eleven here this afternoon by a score of 16 to 0.

Theodore Roosevelt, Jr., played at the left end for Harvard during part of the game.

ANN ARBOR'S VICTORY.

Ann Arbor, Mich., Nov. 18.—Michigan's football eleven defeated Wisconsin on Perry field this afternoon, 12 to 0, scoring one touchdown in each half. The first touchdown was almost a replica of the play which gave Minnesota her first touchdown against Wisconsin at Minneapolis two weeks ago.

Wisconsin played the game out without a substitute, although Deering, Roseth and Bertke were cut and bleeding before the game had progressed fifteen minutes. Michigan used two substitutes. Today's victory by Michigan brings this year's struggle for the western championship down to Michigan and Chicago, as Minnesota, the only other team that looked strong enough to contend for the honor has already been defeated by Wisconsin. The game in Chicago on Thanksgiving day therefore will settle decisively which team shall hold this coveted honor.

NORWEGIAN KING HAAKON THE SEVENTH

Christiana, Nov. 18.—A telegram from Prince Charles of Denmark was read in the storting tonight. It is announced that he would take the name of Haakon VII and that he would confer on his son the name of Olaf.

THE DATE OF CORONATION.

Copenhagen, Nov. 18.—A telegram announcing that the storting had elected Prince Charles of Denmark king was received during a dinner given by Crown Prince and Crown Princess Frederik, and at which Prince Charles was present. The crown prince immediately drank a toast to the new monarch of Norway. It is understood that King Edward will visit the new king at Christiania early in 1906.

The formal coronation will take place July 27.

AN S. F. P. & P NEW SCHEDULE

Under Consideration by the Road Officials

A Proposed Improvement Which Will Give Phoenix Two Passenger Trains for the North Daily.

The Santa Fe, Prescott and Phoenix Railway company is considering making arrangements for additional train service between Ash Fork and Phoenix during the winter months, and if successful the new train will likely be scheduled as a daylight train. If this additional train service should be put on it would be of great convenience to the whole territory as people for the south would make connections with the Maricopa road for southern points, and vice versa. Passengers from Tempe and Mesa could leave home in the morning and make close connections with east bound trains at Ash Fork the same day.

It is believed that Pullman cars would be run on these trains thereby furnishing the best of accommodations for patrons of the road while the new hotel at Ash Fork is being erected. With Pullman cars available for passengers arriving from the east on the limited, as well as passengers arriving from San Francisco at 4 o'clock in the morning the company will have done its best to provide every comfort for the traveling public.

This additional train would make it possible for the people from Phoenix to go to Prescott during the night and spend a couple of hours attending to business in the morning, returning to Phoenix the same evening. The same would be true as to Prescott people going to visit Phoenix is concerned. It has been suggested that train No.

2 might be changed to leave Phoenix at 12 midnight instead of at the present hour and make connection with the east bound limited at Ash Fork.

It is hoped that the company will succeed in making these arrangements. It would be additional evidence of its earnest desire to meet all conditions as they arise and do all that is possible to maintain for the line the popularity it so justly deserves.

THOUSAND DESERTERS.

From the Visiting Squadron of the Prince Admiral.

New York, Nov. 18.—A thousand and fifty six British sailors are missing today from the squadron of Prince Louis of Battenburg, which has been anchored in the harbor a week. The sailors are recorded as deserters from six ships, but the officers hope that most of them have merely overstayed shore leave.

ARIZONA BANKERS GIVEN A SMOKER

The Entertainment of the Delegates Last Night by Yavapai Club.

Prescott, Nov. 18.—(Special.)—The delegates to the Arizona Bankers' association whose convention was held here today were given a smoker tonight by the Yavapai club. The entertainment was necessarily a brief one as many of the delegates desired to take the train for the south, but it was none the less pleasant.

The visitors were welcomed by Judge Hawkins, the president of the club and there were several responses. Addresses were made by Mr. F. M. Murphy and by Mr. Hugo Richards in behalf of the bankers of Prescott.

The meeting of the association today was the most successful in the history of the organization.

WEATHER TODAY.

Washington, Nov. 18.—Forecast for Arizona: Fair Sunday and Monday.

Two Famous Systems of Shorthand THE GREGG AND THE GRAHAM.

We Teach Either. The Choice is Left Entirely With the Student

The Graham is too well known to need any comment or recommendation. It has now been before the public nearly forty years and no system yet devised has ever shown greater speed possibilities or has become a greater favorite among court reporters. It is now written by nearly one half of all the court reporters in the United States and by most of the famous newspaper reporters. When one understands the Graham shorthand thoroughly he may rest assured that he could not be better equipped for the profession of a verbatim reporter.

The objections brought against the Graham, or any other Pitmanic system, are that they are very hard to learn—requiring fully twice the time required for the Gregg—and they are very hard to read. However, we might say legibility often depends more upon the writer than the system written. Some people can't write ordinary long hand so it can be read.

GREGG FEATURES.

No system ever devised can possibly lay greater claim to a combination of speed, legibility and the ease with which it may be learned than the Gregg. In many tests it has shown as great speed possibilities as the Graham and no system can be read with greater ease, or learned in less time. This has been proven over and over and accounts for its remarkable popularity.

The Gregg Shorthand was taught in about thirty schools eight years ago, while today it is taught in more than one thousand, or in more schools than all other systems combined and more than half of all the pupils in the United States now studying shorthand are studying the Gregg.

To give an idea of the relative standing of Gregg and Graham shorthand as compared with other systems we might cite the government report on commercial education which shows that there are about one thousand eight hundred commercial schools in the U. S. and thirty-seven systems of shorthand. Now of these schools over one thousand teach the Gregg system and over five hundred the Graham or some other Pitmanic system as the Munson, Barnes, Benn Pitman, etc. Both the Gregg and Graham are taught in a great many schools. The remaining thirty or more systems are divided among the remaining four or five hundred schools, no one system in the lot being taught in more than fifty schools and many of them in only two or three schools each although it is boldly asserted of some of them that they are taught in thousands of schools.

We can show the names and addresses of the schools using the Gregg and have in our office a closely printed list of those names and addresses. This list is over three yards long and within itself proves the popularity and success of Gregg shorthand.

The Pitmanic and the Gregg systems are the only systems securing medals of any kind at the World's Fair in St. Louis and no system at any time or place has ever secured any higher award than these systems when placed in even competition with them.

It was Gregg shorthand that was taught exclusively in Brown's Model Business College which took the Gold Medal at the world's fair.

THE BEST NONE TOO GOOD FOR US.

That is why we have selected the Gregg and the Graham systems of shorthand for all of our beginning shorthand students.

As far as speed and general practical utility for all purposes are concerned the most any author of any new system ever hopes to claim is that his system is as good as the Graham. It is the standard of comparison in this respect.

As far as legibility and the ease with which the system may be learned is concerned the most any author hopes to claim is that his system is equal to the Gregg. It is the standard of comparison in this direction. While we teach any of the Pitmanic systems, as Barnes, Munson, Dement, etc., to advanced students. We do not care to start new students in them when it is just as easy to begin a better system in the Graham or Gregg.

TYPEWRITING IS FREE.

Typewriting is free to all students whether in bookkeeping, shorthand or English. We do not believe there is a better equipped school in the entire southwest for teaching typewriting than we have. We have both wide and standard carriage machines and have a full equipment for tabulating, duplicating, mimeographing, letterpress copying, color work, etc., all of which every graduate must understand.

ONE TUITION.

We have but one tuition and there are no incidentals. Neither do we advertise a cheap tuition and then add the balance to the purchase price of books and supplies. Our supplies cost less than in any business college on the coast because all the large books, loose leaf ledger outfits, etc.—more than forty in all—used in the offices are paid for by the school.

WE GUARANTEE POSITIONS.

We do this because we have never seen the time when we could not place a graduate of our \$80 combination course of business and stenography in a good position. Right now we have on file applications for three such graduates and the lowest salary named is \$75 per month. We have no one to fill them but the applicants state they can hold the positions until Jan. 1. We are now hunting among our old graduates to see if any of them desire a change. The reason we have so many excellent positions to fill is because business men all over the territory have learned to rely on what we say concerning anyone whom we may send them.

Get Ready. Start Today.

The Lamson Business College.

Seventeenth Year in Phoenix.
